	created: Date
	updated: Date
	connected: Date
	oauth_key: String
	name: String

Gallery	
PK	gallery_id: UUID
FK1	user_id: UUID
	created: Date
	updated: Date
	title: String
	description: String

A user can create multiple galleries, and a gallery must be associated with a user.

A user can upload many images, and an image must be associated with a user.

A gallery must be (eventually) associated with at least one image. At first a gallery can be made without image association.

CelestialObject	
PK	celestial_object_id
	created: Date
	name: String
	altitude: String ???
	azimuth: String ???
	right_ascension: String
	declination: String
	cartesian_x: String
	cartesian_y: String
